HP-G-SERIES

HP-G-A1212 400-400-500 TSM LPS HO TH C3 MT MJ NL
High Precision Embroidery Machine

Science and technology constitute a primary productive force, its updating makes the development of mechanical industry move forward. YUEMEI keeps up with the times, innivating old techniques and importing new automatic equipments, brings out brand-new high precision models on the basis of mature high speed machine technology. HP machine will be a sharp weapon in embroidery industry which would not only give higher production efficiency but also improve stitch quality. The embroidery industry has entered high speed age. YUEMEI high precision machine becomes very popular once it goes to market, especially in garment markets such as Turkey and Portugal.

YUEMEI EMBROIDERY MACHINE

Yuemei embroidery machine
China embroidery machine leading brand

HP-G-A1212 400-400-600 TSM LPS HO TH C3 MT MJ NL BC

YUEMEI EMBROIDERY MACHINE

Machine Features:

- NO.1 Neat Satin stitch of fine letter embroidery, with greater clarity.
- NO.2 Tiny holes on fabric after embroidering, with strong 3D effect.
- NO.3 Low noise production brings you better working environment
- NO.4 Dahao automatic electrical control system customer-made for Yuemei, with optimized software and higher efficiency.
- NO.5 Barudan quality wooden table with higher abrasion resistance.

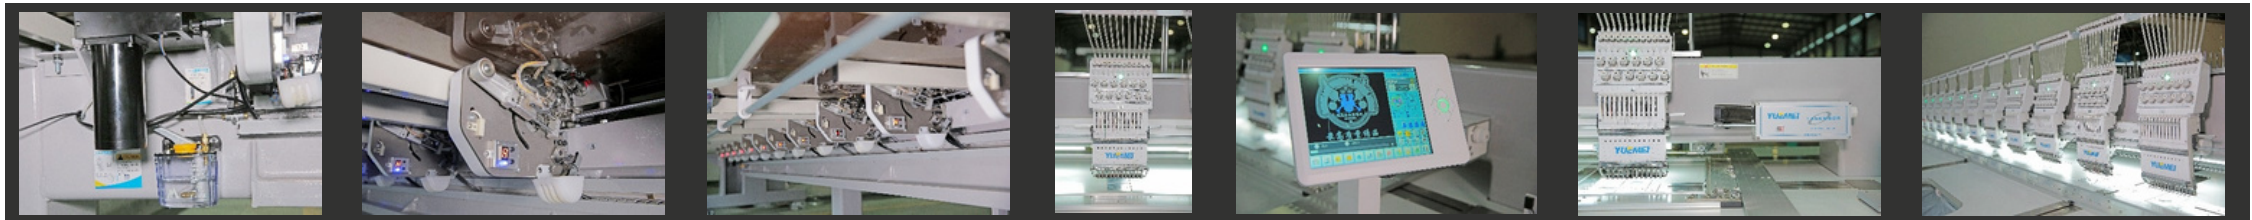

Machine Performance :

Power Supply: 220V/380V 50--60HZ
Design Input: By USB
Capacity: 2 million stitches, 200 designs
Supporting Language: Chinese, English, Turkish, Korea, French, Arabic, Spanish, Russian, Portuguese etc.
Embroidery Method: flat embroidery, fine letters embroidery, 3D embroidery, sequin embroidery, easy towel embroidery, easy cording embroidery, water soluble embroidery etc.

Machine Specification:

Speed: Max speed 1200RPM, running 1100RPM
Control System: Dahao Automatic Electrical Control System customer-made for Yuemei.
Monitor: 8 inch LCD
Drive System : servo motor
New Function: Semi-auto Oil System, Thread-hold device
Trimmer: By motor
Rotary Hook: Original Hirose hook made in Japan
